About the Journal

2580-7552 (media cetak) (<https://issn.lipi.go.id/terbit/detail/1499052292>)

2548-7515 (media online) (<https://issn.lipi.go.id/terbit/detail/1474193363>)

International Journal on Livable Space is focused on the three main aspects of livable space: community life, environment and technology. It is interested at inhabitation process, spatial structures (of houses, housings, neighborhoods, settlements, cities/urban, and territories), with its essential factors (social, cultural, economic, politics, and ideology), including reviews of phenomena in the context of philosophy. It is also interested at spatial context in relation to the aspects of safety, climatic change, social-cultural connectivity, quality of architecture, public facilities, spatial tolerance, environmental issues, ecological access, and the concepts and praxis of community based development.

Publication Frequency

LIVAS is published online twice a year

Open Access Policy

This journal provides immediate open access to its content on the principle that making research freely available to the public supports a greater global exchange of knowledge.
