The impact of supraspinatus tear on subscapularis muscle atrophy and fatty infiltration

Su Cheol Kim, Seung Jin Yoo, Je Hyeong Jo, et al.
Clin Shoulder Elb. 2024;27(4):437-446.

Background: Aimed to report the prevalence and predisposing factors affecting subscapularis muscle atrophy and fatty infiltration (MAFI) in patients without a subscapularis tear, and to analyze the effect of this...
